Job Description

Manager, Product Training will play a pivotal role in equipping the sales team with the necessary knowledge and tools to promote products effectively within the life science industry. This position, based in Tokyo, requires a strategic approach to training and a comprehensive understanding of Oncology drug.

Client Details

The hiring company is a medium-sized enterprise operating within the Pharma sector, recognized for its innovative solutions and commitment to advancing healthcare. They are dedicated to supporting their employees with a professional and structured environment.

Description

- Design and deliver comprehensive training programs for the sales team focused on Oncology Product
- Collaborate with cross-functional teams to ensure training materials align with the company's strategic objectives.
- Evaluate the effectiveness of training sessions and implement improvements as needed.
- Stay updated on the latest advancements in the Pharma industry to enhance training content.
- Provide ongoing support and guidance to the sales team to optimize performance.
- Develop and maintain a thorough understanding of Oncology therapies and market trends.

- Coordinate with external stakeholders to ensure compliance with industry standards.
- Prepare detailed reports and analyses for senior management on training outcomes.

Job Offer

- A permanent position offering stability and growth opportunities in Tokyo.
- The chance to work in a professional and supportive environment within the Pharma Industry
- Opportunities for professional development and career progression.
