Job Description

The Supply Planning Manager will oversee procurement and supply chain operations to ensure efficient inventory management and seamless supply planning. This role is ideal for a professional who excels in improving processes and supporting business growth in the retail industry.

Client Details

This opportunity is with a large organization in the retail industry that is renowned for its extensive product offerings and operational excellence. The company prioritizes innovation within procurement and supply chain functions to maintain its competitive edge in the market.

Description

- Develop and implement supply planning strategies to support business goals.
- Coordinate with internal teams and external suppliers to ensure timely procurement and delivery of goods.
- Monitor inventory levels and optimize stock to meet customer demand effectively.
- Analyze supply chain data to identify areas for improvement and cost savings.
- Create accurate forecasts and align supply plans with sales targets.
- Manage supplier relationships to ensure quality, reliability, and performance.
- Collaborate with cross-functional teams to streamline supply chain processes.
- Prepare and present regular reports on supply planning performance and key metrics.

Job Offer

- Competitive annual salary in the range of 9,000,000 JPY to 11,000,000 JPY.
- Opportunities for professional growth in the retail industry.
- Inclusive and supportive company culture.
- Comprehensive benefits package to enhance work-life balance.
- Chance to lead and innovate within the procurement and supply chain domain.

If you're ready to take the next step in your career as a Supply Planning Manager, we encourage you to apply today!

Required Skills

A successful Supply Planning Manager should have:

- A strong background in supply chain management or related fields.
- Hands-on experience in inventory planning and procurement processes.
- Proficiency in analyzing data and creating actionable insights.
- Excellent communication and negotiation skills.
- Adeptness in using supply chain software or ERP systems.
- A results-driven mindset with a focus on accuracy and efficiency.
