## Job Description

### Company and Job Overview

A leading semiconductor fabrication is looking for an experienced Capex Category Manager

### Responsibilities

Serve as the primary point of contact with suppliers for relationship management, establishing business frameworks, monitoring performance, and conducting overall reviews.

Keep abreast of industry trends, supplier risk profiles, and market developments to develop long-term supplier engagement strategies.

Identify and source new business partners to fulfill the evolving needs of the organization.

Develop and implement strategies to maximize cost savings while ensuring high quality and timely delivery.

Collaborate with internal stakeholders to understand the company's long-term requirements, contributing to strategic

planning and operational alignment.

Drive initiatives with relevant teams to achieve Total Cost of Ownership (TCO) reductions.

Lead and facilitate business reviews and category review meetings.

Qualifications & Experience:

Diploma or Degree in a relevant field.

At least five years of management and/or Category Management experience.

Experience in the subcontractor semiconductor manufacturing industry is a plus.

Strong knowledge of logistics, supply chain systems, and industry dynamics.

Ability to work effectively under pressure, independently or within a cross-functional team.

Innovative, analytical, and solutions-focused mindset with problem-solving and strategic thinking skills.

Excellent interpersonal, communication, and influencing abilities.

Strong project management and organizational skills with the ability to manage multiple initiatives simultaneously.

Proficiency in Microsoft Office Suite applications.
