### Job Description

This is a managerial position leading the sales team for single-use products in biopharmaceutical production. You will take responsibility for strategic planning, customer engagement, and team management.

### Client Details

- A world-leading global life science company with over 100,000 employees worldwide, offering both stability and long term career opportunities.
- Provides a wide range of products-including bioproduction solutions, genetic analysis tools, analytical instruments, and software-contributing to the research and development of innovative pharmaceuticals.

### Description

- Lead a team of three technical sales representatives; drive sales results for bioprocess-related products
- Manage team performance and support individual members in reaching their goals
- Analyze market trends and competitor information, identify new business opportunities, and develop strategies for

business growth

- Understand customer needs and propose optimal solutions

#### **Job Offer**

- Lead the sales of well-recognized brands at a leading company in the bioprocess field
- Opportunities for internal promotion and movement
- Collaborate with global teams and cross-functional departments to drive business growth
- Flexible work style, competitive salary

Page Group Japan is acting as an Employment Agency in relation to this vacancy.

---

#### **Required Skills**

- Experience managing a sales team
- Sales, technical sales or sales engineer experience in B2B industry
- Background in life science, biotech, healthcare, chemicals, semiconductors, electronics or relevant industries preferred
- Capability to communicate in Japanese and in English at business level

---
