### Job Description

**Company:**

This global renewable energy company is actively expanding in Asia and is looking for a professional to lead Health, Safety & Environmental (HSE) management across its Japanese operations. The company is committed to sustainability and innovation, offering a collaborative and forward-thinking environment.

**Key Responsibilities:**

- Implement and maintain HSE management systems across project sites
- Support site teams and ensure compliance with legal and internal standards
- Promote a strong HSE culture in projects and supply chain
- Lead accident investigations and risk mitigation strategies
- Provide HSE guidance during bidding and construction phases
- Conduct audits and drive continuous improvement in HSE performance

---

## Required Skills

### **Requirements:**

- 10+ years of experience in HSE or related fields
- Degree in HSE, Occupational Health & Safety, or similar
- NEBOSH International Certificate preferred
- Strong communication skills in English
- Background in renewable energy or infrastructure projects is a plus

---
