Job Description

The Planning Manager will oversee the end to end Demand Planning within the retail industry, ensuring efficient operations and strategic planning to meet business objectives. This role is ideal for a detail-oriented professional with a strong background in demand planning and a passion for retail excellence.

Client Details

This opportunity is with a well-established, large organization renowned within the retail industry. The company is known for its commitment to delivering high-quality products and maintaining a strong market presence.

Description

- Develop and implement procurement and supply chain strategies to align with business goals.
- Monitor and analyze inventory levels to ensure optimal stock availability.
- Collaborate with cross-functional teams to forecast demand and plan resources effectively.
- Identify and negotiate with suppliers to secure favourable terms and maintain strong relationships.

- Oversee logistics operations, including transportation and warehousing, to ensure timely deliveries.
- Manage the budget for procurement and supply chain activities, optimizing costs where possible.
- Ensure compliance with industry regulations and company policies in all planning processes.
- Generate regular performance reports and recommend improvements to enhance efficiency.

Job Offer

- Competitive salary in the range of JPY 9,000,000 to JPY 11,000,000 annually.
- Opportunities for career growth within a large and reputable organization.
- A collaborative work culture focused on innovation and excellence.

If you are passionate about supply chain management and eager to make an impact in the retail sector, we encourage you to apply for this exciting opportunity.

To apply online please click the 'Apply' button below. For a confidential discussion about this role please contact Mike Corbyn on +813 6832 8601.

Required Skills

A successful Planning Manager should have:

- A degree in supply chain management, business administration, or a related field.
 - Proven experience in demand planning or supply chain within the retail industry (preferable)
 - Strong analytical and problem-solving skills to optimize processes and decision-making.
 - Excellent communication and negotiation abilities for supplier and stakeholder management.
 - Proficiency in supply chain management software and tools.
 - A proactive mindset with the ability to adapt to dynamic retail environments.
