Job Description

The Demand Planning Senior Specialist will oversee demand forecasting and inventory management within the retail industry to ensure seamless supply chain operations. This role requires an analytical mindset and a proactive approach to support procurement and supply chain processes in Tokyo.

Client Details

The hiring company is a small-sized retail industry organization known for its commitment to delivering high-quality products and services. They are focused on innovation and efficiency within their supply chain operations.

Description

- Develop and manage demand forecasts to support effective inventory planning.

- Monitor stock levels and coordinate with procurement teams to prevent shortages or overstocking.
- Collaborate with cross-functional teams to align supply chain goals with business objectives.
- Analyze sales data and market trends to refine demand planning strategies.
- Maintain accurate records of inventory and supply chain performance metrics.
- Identify process improvement opportunities within operations and demand planning workflows.
- Ensure compliance with company policies and industry regulations in supply chain activities.
- Prepare detailed reports for management to aid in decision-making processes.

Job Offer

- Competitive annual salary ranging from 7,000,000 JPY to 8,000,000 JPY.
- Comprehensive benefits package and opportunities for professional growth.
- Paid holiday leave to maintain a healthy work-life balance.
- A role within a supportive and forward-thinking company culture.

This is an excellent opportunity to advance your career in the retail industry while working in Tokyo. Apply now to join a team dedicated to optimizing supply chain excellence!

Required Skills

A successful Demand Planning Senior Specialist should have:

- A strong background in supply chain or demand planning within the retail industry.
- Proficiency in data analysis and forecasting tools.
- Excellent organizational and problem-solving skills.
- The ability to work effectively in a fast-paced environment in Tokyo.
- A degree in supply chain management, business, or a related field.
- Strong communication skills for collaboration with various teams.
