## Job Description

**Location:** Bangkok, Thailand (BTS Accessible)

Our client is the leading deep-tech enterprise headquartered in Japan, recognized for its innovation in IoT system integration. The company is the first globally to bring long-range wireless technology to market. The Thailand office plays a key role in driving regional growth across ASEAN.

**Key Responsibilities:**

- Lead the execution of IoT infrastructure projects, starting from the sales handover phase.
- Work closely with on-site teams to ensure smooth and timely project delivery.
- Oversee project timelines, resource allocation, risk mitigation, and budget control.
- Communicate technical concepts clearly and gather requirements from clients.

- Manage inventory and coordinate procurement of necessary equipment.
- Liaise with subcontractors and supervise teams operating across multiple locations.

**Qualifications:**

- At least 5 years of experience managing multiple projects simultaneously.
- Practical experience in IT, networking, or IoT-related implementations.
- Excellent communication and interpersonal skills.
- Proven track record in process optimization and familiarity with project management certifications.
- Solid understanding of hardware, software, and network deployment.
- Strong command of English for professional communication.

**Notice:** By submitting an application for this position, you acknowledge and consent to the disclosure of your personal information to the Privacy Policy and Terms and Conditions, for the purpose of recruitment and candidate evaluation.
