Job Description

Company and Job Overview

A leading company in the advanced manufacturing industry is seeking a Deputy BU Manager to join a new start-up division. This role involves overseeing production operations to ensure efficient, cost-effective manufacturing processes while maintaining high-quality standards. The ideal candidate will have a strong background in manufacturing, excellent leadership skills, and a proven ability to drive process improvements and innovation. This is an exciting opportunity for a professional looking to contribute to a company known for its high-quality products and innovative solutions.

Job Responsibilities

- Manage all production activities, ensuring smooth and efficient manufacturing processes, optimizing operations to achieve cost efficiency, uphold quality standards, and ensure timely product delivery.
- Providing strategic leadership and direction to the operations team, develop and implement operational policies and procedures, and foster a culture of continuous improvement and innovation
- Coordinate with the planning and logistics departments to ensure smooth workflow and inventory management
- Implement lean manufacturing principles and lead initiatives to reduce waste/cost, improve productivity, and enhance overall operational efficiency
- Promote a safe working environment by conducting regular safety audits and implementing corrective actions
- Responsible to recruit, train, and develop a high-performing operations team
- Driving staff training & development program

Job Requirements

- Bachelor's degree in Industrial Engineering, Manufacturing Engineering, or other related field.
- Minimum of 8 years of experience in manufacturing operations, with at least 5 years in a leadership role within the equipment fabrication or surface treatment industry (where applicable).
- Strategic thinker with a strong background in equipment fabrication or surface treatment (where applicable), production management, and process improvement.
- Proven experience in implementing Lean manufacturing principles and other process improvement methodologies.
- Experience with ISO 9001 or other quality management systems.
- Mandarin speakers are highly valued for daily communication with counterparts in China.
