Job Description

We’re seeking skilled and growth-oriented backend engineers to join our young, dynamic, and forward-thinking team. This is a unique opportunity to be part of an innovative entertainment tech company during an exciting phase of rapid growth and expansion. As the organization scale it's products and operations, you’ll play a key and leading role in shaping the backend development that power the company's flagship entertainment platform—and growing alongside a passionate and collaborative team.

Why Join?

- **Global environment:** Join international and multicultural team of talented individuals

- **Young team:** Grow along side a very young but fast growing team.
- **Working style:** Want to work remotely? No problem. Want to meet the team in the office? No problem as well.

Required Skills

Requirements:

- Served as a lead engineer or core team member in the development and release of server-side applications.
- Worked in an agile development environment, collaborating closely with Product Managers throughout the development and release process as a backend engineer.
- At least business level **English** or **Japanese**

Welcomed skills:

- Experience with JavaScript/Nodejs
- Experience in scaling systems in high load environments.
- Experience in client-side development for iOS/Android/Web.
- Business level English AND Japanese
