Job Description

Company Overview

JAC is working closely with a healthcare technology company for an ICT Specialist position. This role offers an exciting opportunity to work on cutting-edge ICT solutions and technologies, contributing to the advancement of healthcare informatics.

Job Description

- Gather requirements, design, test, and deploy ICT solutions and technologies.

- Lead IT-related projects, including scoping, solution presentation, and implementation.

- Interact with customer IT departments to integrate solutions within their IT environments.

- Provide post-implementation support to customers.

- Support the commercial/sales team in RFPs, tenders, and proposals for IT projects.

- Collaborate with product and sales teams to ensure successful project implementation.

- Communicate with solution business units in the USA and Japan on enterprise and IT solutions.

- Train channel partners on enterprise/ICT solutions across various product portfolios.

- Support regional teams on enterprise project sales and implementation as needed.

Qualifications

- Bachelor's degree in IT, Computer Science, Healthcare Informatics, or a related field.

- Native level Japanese speaking skill to communicate with Japanese clients.

- Minimum of 5 years of experience in the healthcare informatics field.

- At least 3 years of experience in configuring, integrating, and implementing solutions with EMR systems and medical device integration.

- Experience with HL7, DICOM, XML, and EMR integration and mapping.

- Understanding of clinical workflows and operations is an advantage.

- Knowledge of hardware and software configuration for servers (Windows/Linux), virtual machines, networks, and cloud solutions.

- Familiarity with network (switch/routing), wireless networks, and CCNA certification is an advantage.

Apply online or feel free to contact me directly for more information about this opportunity. Due to the high volume of applicants, we regret to inform that only shortlisted candidates will be notified. Thank you for your understanding.
