## Job Description

### Company and Job Overview

A pioneering Japanese company in vacuum solutions is seeking a Field Service (industrial) Engineer EMEA (m/f/d) in Munich.

### Job Responsibilities

- Advice and support European customers regarding the full range of the products
- Installation, implementation and start-up the equipment and components throughout Europe
- Troubleshoot and analyze defects on-site or online
- Service and repair the systems in the field
- Technical support in-house and on-site customers

- Documentation and reporting
- Interface between customers and our departments
- Sales support for spare parts, components, service and special technical solutions
- Technical support for tests and special applications of our customers in the laboratories
- Preventive maintenance and addressing the challenges presented by our customers
- Train customers on the products

### **Job Requirements**

- High technical competence i.e. Engineering Degree in Mechanical or Electrical Engineering or technical apprenticeship with 3-5 years
- Experience with industrial vacuum equipment (metal treatment and film coating evaporation process, components vacuum leak testing)
- experience with equipment such as Sputtering, CVD, Etching process
- Knowledge in PLC, I/O communications and substrate transfer robot is desirable
- Experience in troubleshooting and solving complex technical issues
- Know-how in working on mechanical, computer, electrical, pneumatics and electro-mechanical control systems
- Well-organized, able to work in a team as well as independently
- Fluent English required / Proficiency in German, Japanese, or Chinese would be considered a valuable asset.
- Good Interpersonal skills and ability to communicate with customers as well as ability to work in a team
- Ability to proactively identify and consistently follow up on customer needs
- Good-hand worker and ability to make own explanation reports/materials for customer understanding
- High flexibility, motivation and willingness to travel within Europe and overseas around 70%
- Ability to travel at a short notice and able to attend to oversea equipment installation 3-6 months.
- Living in Germany and willing to move to Munich, valid visa or blue card. Must be able to travel internationally without restrictions
- Driving license

### **Benefits**

- Long-term perspectives in an international expanding high tech company
- 30 days off
- An interesting and diversified position in our growing, international and dynamic service team
- Regular and detailed training in our production facilities and within the team
- Equipment training in the group companies in Asia and USA
- Pleasant and international working environment
- Free drinks / fruit
- Free parking slots in front of the office
