Job Description

----- 【About the company ...】 -----

The company was established in May 2012 to solve the money issues of individuals and companies through the services, and to make users' lives more positive and forward-thinking.

Through their services, they aim to become the No. 1 "money platform" in Japan by relieving individuals of their money worries and anxieties, improving corporate management, and increasing domestic productivity.

----- 【 Job Description 】 -----

Recruitment Background

The company offers more than 30 services and strives to increase the value it provides to users on a daily basis. In the midst of this, the company is focusing on both "functional improvement and debt resolution of existing products" and "development of new services," and is looking for new colleagues.

Responsibilities

- ・ toB SaaS product development (providing value in back-office business efficiency and SaaS marketing)
 - ・ toC product development (products represented by household accounting apps, new products, etc.)
 - ・ Engineering at internal infrastructure/security headquarters
 - ・ CTO's office (team directly under CTO) Engineering at
 - ・ Engineering Lead and Engineering Manager for each product
 - ・ Tech Lead for each product
 - ・ Product Manager for each product
- etc.

■Environment

The company is looking forward to working with you to create world-class services.

Development environment/specs: MacBook Pro / MacBook Air / iMac / Windows

MacBook Pro / MacBook Air / iMac are high-spec PCs provided as standard, and will be constantly updated to meet the latest Apple standards.

Comfortable development environment support: Equipment necessary for work can be purchased at company expense, as long as it is from a catalog determined by the company.

Library: We have a library system that allows employees to borrow any books, from technical books to management books, without restriction. The books you want can be purchased at company expense.

Referral Driven: The company pays for the cost of the recruitment meeting meals. Referral reward system.

Conference participation support: The company partially pays for participation in domestic and international conferences such as RubyKaigi and Google I/O.
