### Job Description

A global electronics company is looking for a Quality Engineer. The selected candidate will manage quality data, customer complaints, and lead continuous improvement activities across internal and external stakeholders.

A global leader in high-voltage power conversion, this company specialises in designing and manufacturing advanced power solutions for medical, industrial, and scientific applications. Known for its innovation and reliability, it empowers technology-driven industries with precision-engineered products and global support.

**Keywords:**

品質保証, 顧客対応, 電子部品, 統計分析, 継続的改善, 求人, 外資系

Job Ref: F5USRG

**Responsibilities:**

- Communicate with the repair team to clarify failures and their impacts
- Coordinate with internal manufacturing teams for issue sharing, resolution, and result verification
- Prepare monthly reports and maintain strong relationships with key customers
- Review quality data, generate periodic reports, and identify key issues
- Visit customers and handle complaints, including 8D reporting
- Issue and follow up on CAPA, ensuring effectiveness
- Analyse quality trends and drive continuous improvement initiatives
- Support ECN validation processes with customers and sales
- Lead quality issue meetings with relevant teams
- Coordinate with Global EHS and Asia RA for documentation support

**Requirements:**

- Bachelor's degree or equivalent in electronics
- More than 3 years of experience in customer quality assurance
- Proven experience in troubleshooting within repair/service environments
- Proficient in quality engineering tools such as statistics, sampling plans, SPC, and QC tools
- Skilled in ISO 9001/QS9001, ISO13485/QSR820 standards or electronics component assembly
- Familiar with Six Sigma, lean manufacturing, FMEA, and ERP systems
- Fluent level English and Japanese

---

**Company Description**

We've been a driving force in the Japanese bilingual recruitment market, providing high quality candidates for our clients and access to the best jobs for over 20 years. We operate a team-based profit share system which, we believe, sets us apart from the majority of competitors by enabling us to always put the interests of our clients and candidates first. That means we can find the best fit for employer and job seeker, and we never push people into unsuitable roles.
