Job Ref: X8ZIZT

Responsibilities:

- Act as a sole contributor with a strong focus on diversity
- Collaborate with internal stakeholders, including Business Market Leaders, Service Leaders, and Legal
- Define and communicate Procurement value propositions, promoting standard catalogue items
- Ensure full compliance with local regulations and internal policies
- Drive continuous improvement by proposing and implementing key process changes
- Execute local procurement strategies in alignment with market leadership
- Build and maintain a productivity pipeline to support year-over-year savings
- Safeguard supply assurance to support revenue and customer satisfaction
- Oversee supply base management, including segmentation, risk control, and performance

Requirements:

- More than 5 years of experience in Direct Procurement, Supply Chain, or Project Management within a global matrix environment
- Experience in IT system integrators, software/hardware equipment, and associated services
- Strong business acumen with the ability to collaborate across Business Units and Quality/Regulatory teams
- Proficient in compliance-first operations with a customer-centric mindset
- Ability to influence and challenge traditional practices
- Proficient in Japanese and English (TOEIC 750+)

Company Description

We've been a driving force in the Japanese bilingual recruitment market, providing high quality candidates for our clients and access to the best jobs for over 20 years. We operate a team-based profit share system which, we believe, sets us apart from the majority of competitors by enabling us to always put the interests of our clients and candidates first. That means we can find the best fit for employer and job seeker, and we never push people into unsuitable roles.
