Job Description

We serve our customers around the world in two major business sectors:

- The Automotive and Industrial (A&I) equipment business, where we procure and sell critical components all over the world utilizing our comprehensive strength as a trading company.
- The Optical Communication (OC) components business, where we design, test and manufacture the world's leading optical interconnect products.

Job Title: QA Supervisor

Business Type: Trading, Automotive parts

Location: Sathorn, Bangkok

Job Type: Full-time, Monday-Friday, 08:30-17:30 hrs.

Position Overview:

The QA Supervisor report to the QA Manager.

Quality Assurance Supervisor to oversee the inspection of components used in the automotive industry. This role involves managing incoming quality control, preparing PPAP and 8D reports, and ensuring compliance with ISO 9001 and IATF 16949 standards. The ideal candidate will have strong English communication skills, experience working with international suppliers, and the ability to lead a small QA team in a fast-paced, high-precision environment.

Responsibilities:**Customer Relationship Building (Acquisition & Maintenance)**

- Supervise and inspect the quality of incoming materials (Incoming Quality Control)
- Analyze and prepare 8D Reports for quality issue resolution
- Prepare and review PPAP (Production Part Approval Process) documentation
- Coordinate with production, purchasing, and overseas suppliers to resolve quality issues
- Communicate with both customers (buyers) and suppliers (sellers) to ensure product and service quality
- Negotiate effectively with customers and suppliers to resolve issues and maintain satisfaction
- Lead and manage a quality control team of 3–5 members to ensure efficient operations
- Support internal and external audits
- Manage all costs associated with sorting and defective parts (Cost recovery)
- Responsible for the inventory management of any defective material and disposition
- Other tasks as directed by Quality Manager or Managing Director

Quality Assurance Functional Competencies

- Relationship Building: Develop effective long-term professional interactions with others based on trust. Trust is created by your honest attitude, knowledge, conversational ability, and thinking ability.
- Competitive Attitude: A competitive mindset and focus on continuously improving the relationship with customers and suppliers to increase the win rate.
- Time Management: Time Management-Focus on completing all work tasks in a timely manner while remaining responsive enough to handle competing demands and shifting priorities. This responsibility is to manage multiple responsibilities, keep them organized, keep track of important time-sensitive tasks, and do all your work accurately.
- Negotiation: Identify the key points of negotiation for all parties and work effectively on how to derive a win-win solution. You will also work to improve knowledge and the ability necessary for negotiations, such as gathering information for preparation.

Qualifications:

- Bachelor's degree or higher in Engineering, Science, or a related field
- Minimum 3–5 years of experience in quality inspection within the automotive industry or trading business
- Knowledge and experience in Incoming Inspection, PPAP, and 8D Reports
- Good command of English (speaking, reading, writing) with a TOEIC score of 750 or above
- Experience in coordinating with international partners and strong negotiation skills
- Strong leadership and team management abilities
- Knowledge of ISO9001 and IATF16949 standards is an advantage
- Familiar with general automotive supply chain processes in Senko's role as wholesale distributor is an advantage

Benefits:

- Social Security
- Health Insurance
- Dental claim 6,000 THB/year
- Provident Fund
- Transportation allowance 2,500 THB/month
- Bonus 2 times/year, depends on performance

How to Apply: If you meet the qualifications and are excited about this opportunity, please submit your resume and a cover letter by click "APPLY" We look forward to hearing from you!
