Job Description

- Market Insights & Competitive Landscape**

Conduct research on target markets and customer needs, analyze competitor offerings, and develop strategies to differentiate the product.

- **Product Positioning & Messaging**
Define the product's unique value proposition and craft compelling messaging tailored to key customer segments.
 - **Go-to-Market Strategy & Execution**
Plan and implement launch strategies for new products and features, ensuring alignment with business objectives.
 - **Stakeholder Enablement**
Develop training materials and resources for internal teams and external partners to support product understanding and adoption.
 - **Sales & Marketing Collateral**
Create effective sales enablement tools and campaign assets to drive lead generation, improve conversion rates, and boost engagement among existing users.
 - **Performance Analysis & Optimization**
Establish and monitor product KPIs (e.g., feature usage), analyze performance data, and propose actionable improvements.
-

Required Skills

- Minimum of 2 years' experience in product marketing for SaaS or software solutions
 - At least 2 years of marketing experience within IT or web-based industries
 - Proven ability to collaborate within multinational, cross-functional teams (English fluency required)
 - Strong skills in self-management and independent execution
 - Excellent analytical and problem-solving capabilities
