Job Description

- Create and manage project plans, schedules, documentation, and presentations.
- Lead and manage project teams effectively.
- Organize and facilitate internal and external meetings.
- Maintain and share MoMs (Minutes of Meeting) and action items.

- Engage and manage stakeholders at all levels.
- Resolve project-related conflicts and ensure smooth delivery.
- Track and report project progress and KPIs.

Required Skills

- Strong understanding of IT infrastructure in data centers (Server, Storage, Middleware, Cloud).
- Proven experience in leading implementation and operations teams.
- Hands-on project management experience for Data Center programs.
- Familiarity with managing both on-premises and cloud-based data centers.
- Cloud migration experience is a plus.
- Experience managing global Data Center engagements.
- Excellent communication and stakeholder management skills.
- Experience in handling large-scale Data Center transition programs.
- Capability to estimate effort and scope for enterprise-level DC projects.
- Solid knowledge of ITIL processes.
- Proven experience managing large DC operations and implementation teams.
