Job Description

We are seeking an experienced QA Engineer to join a global tech leader in Tokyo. In this role, you will take ownership of QA across the software development lifecycle, ensuring high-quality deliverables in a fast-paced, collaborative environment. The initial contract is long-term dispatch (派遣), with strong potential to transition into a permanent position.

Client Details

Our client is a well-established technology company with a strong presence in Japan and worldwide. They provide an innovative and dynamic workplace where engineers can grow their skills while contributing to impactful projects.

Description

- Lead QA activities across the full software development lifecycle
- Build, maintain, and execute test plans (manual and automated)
- Mentor and guide QA engineers to improve overall team capability
- Work closely with developers, product managers, and other stakeholders to ensure quality delivery
- Proactively identify and implement process improvements for testing efficiency

Job Offer

- Contract Type: **Long-term dispatch (派遣契約)** with strong potential for permanent conversion
- Salary: **Up to ¥7M (depending on experience)**
- Location: **Tokyo** (hybrid model, typically 1 day remote per week)
- Start Date: **October 1, 2025 (urgent hire)**

To apply online please click the 'Apply' button below. For a confidential discussion about this role please contact Hikari Takamura on +813 6832 8903.

Required Skills

- Proven experience in QA Engineering (manual + automation)
- Hands-on experience with test automation tools (e.g., Selenium, Playwright, etc.)
- Strong communication skills and ability to work in cross-functional, international teams
- Japanese proficiency: **Business level (JLPT N2 preferred, N3 welcome)**
- English proficiency: **Business level**

Company Description

Our client is a well-established technology company with a strong presence in Japan and worldwide. They provide an innovative and dynamic workplace where engineers can grow their skills while contributing to impactful projects.
