Your role at Open-Xchange

Don't just work – thrive! Join Open-Xchange and be part of a team committed to openness and innovation. We're looking for a Solution Engineer to join our APAC team. In this role, you'll collaborate with both prospective and existing clients, working on and off-site to deliver solutions based on our products (Dovecot Pro, OX App Suite, and PowerDNS). You'll work closely with our product and engineering teams, manage high-profile projects, and serve as a technical expert and main point of contact for customer issues. Self-starters who can independently manage their workload and have strong customer management skills will excel in this role.

We seek individuals who embrace openness, have a rebellious spirit, and aim to revolutionize the market.

About Us

We are eMail and DNS. Our "white label" products are trusted by global giants like, Japanise Telco & ISPs and BT, KPN, Comcast, Cox, 1&1, STRATO, Deutsche Telekom, Vodafone, Orange, Unitymedia, ItaliaOnline, Host Europe, NetCologne, web.com, and Rackspace.

Your Role

- Engage with customers, assess their needs, and craft custom solutions.
- Troubleshooting based on issues reproduction and log analysis, etc.
- Bridge the gap between customers and our Engineering team.
- Design, deploy, and roll out large-scale customer projects.
- Provide technical guidance during complex deployments.
- Create system architectures, performance benchmarks, and on-site installations.
- Train customer administrators and support teams.
- · Document projects and systems thoroughly.
- Be the go-to contact for technical issues during implementation.
- Collaborate with OX Engineering, Sales, Pre-Sales, and Project teams.
- · Support system deployment experts.
- Work on-site with customers or from our Tokyo office.

About Open-Xchange

Open-Xchange is a leader in Mail/Messaging and DNS-based security services, with over 200 million seats sold globally. Our partners and customers include Japanese Teleco and ISPs, Comcast, GoDaddy, 1&1, Orange, Italia Online, British Telecom, and many more. Rooted in Open Source, our culture is open, diverse, and action-oriented, providing everyone room to take responsibility and grow. We believe in an internet that is open, safe, and free.

OX develops and operates Open-Source software (aaS) for mail/messaging (OX App Suite, OX Guard) and collaboration/productivity (OX Drive, OX Documents). Dovecot is the world's leading open-source IMAP server software, and PowerDNS provides secure DNS services to our telco customers and their users. Our fast-paced and dynamic business is constantly evolving. We seek

entrepreneurial individuals who share our beliefs, aim to make a difference, and enjoy working in a high-tech, international environment. OX is headquartered in Cologne, Germany, with locations throughout Germany, Finland, the Netherlands, Italy, and Japan.
