Job Description

This Scrum Master role supports a fast-growing telecom B2C platform, guiding agile teams to deliver high-quality products through effective facilitation, coaching, and process improvement. The position offers the chance to lead Scrum practices in a dynamic, English-speaking environment with no Japanese language requirement.

Client Details

The client is a fast-growing telecommunications company that launched its mobile network operations a few years ago and is rapidly scaling its subscriber base. They are focused on building a robust and innovative B2C platform to support their business systems, with a strong emphasis on agile development, continuous improvement, and becoming a leading player in the telecom industry.

Description

- Lead agile ceremonies and coach teams to deliver high-impact telecom products.
- Drive continuous improvement and remove blockers to boost team performance.
- Collaborate with cross-functional teams in a fast-growing, English-speaking environment.
- Champion agile values and foster a culture of transparency and efficiency.
- Use tools like JIRA to support sprint planning, tracking, and delivery excellence.

Job Offer

- Global environment
- Opportunity to gain experience in the dynamic Technology & Telecoms industry.
- A supportive work environment based in Tokyo.

To apply online please click the 'Apply' button below. For a confidential discussion about this role please contact Riko Ichio +81366276091.

Required Skills

- Experienced in Agile and Scrum, with a proven ability to lead cross-functional teams.
- Skilled in using JIRA and facilitating Scrum ceremonies effectively.
- Strong communicator and coach, able to resolve conflicts and foster team collaboration.
- Proactive in removing blockers and driving continuous improvement.
- Comfortable working in a fast-paced, English-speaking tech environment.
