Job Description

This role supports the migration from CATIA V5 to 3DEXPERIENCE, including technical guidance and data integrity. It involves bilingual support, starting in November for a long-term engagement.

Client Details

A major engineering solutions provider supporting digital transformation in industries like automotive and aerospace. They specialize in CATIA and 3DEXPERIENCE platforms, offering hands-on migration, user support, and system integration services across Japan.

Description

- Expertise in CATIA V5 & 3DEXPERIENCE CATIA operations and workflows
- Data migration using Batch Tools / LDI, preserving links and metadata
- Troubleshooting migration errors and validating geometry and drawings
- UI and process guidance for users transitioning from V5 to V6
- Industry-specific design knowledge (automotive, aerospace, etc.)

Job Offer

- Work in a global environment
- Engagement: Long-term, stable project
- Technical support and data migration for CATIA V5 to 3DEXPERIENCE

To apply online please click the 'Apply' button below. For a confidential discussion about this role please contact Riko Ichio +81366276091.

Required Skills

- Fluent in CATIA V5 & 3DEXPERIENCE CATIA, with hands-on migration experience
- Proficient in migration tools like Batch Tools or LDI
- Skilled in troubleshooting and validating migrated data
- Able to guide users through UI and workflow changes
- Understands industry-specific design practices (e.g., automotive, aerospace)

Company Description

A major engineering solutions provider supporting digital transformation in industries like automotive and aerospace. They specialize in CATIA and 3DEXPERIENCE platforms, offering hands-on migration, user support, and system integration services across Japan.
