Job Description

Electrical Engineer - Pharma

You will be responsible for:

- Design, implement, and maintain electrical systems within the manufacturing facility
- Support the integration of automation and control systems with process equipment.

- Provide technical expertise in Class C equipment, HVAC systems, and filling lines
- Troubleshoot and resolve electrical issues to ensure continuous operation
- Collaborate with cross-functional teams to ensure compliance with industry regulations and company standards
- Oversee and manage the maintenance and operation of Class C equipment in compliance with industry standards
- Conduct regular inspections and assessments to identify and resolve electrical issues
- Monitor and analyze particle levels in sterile environments to uphold quality standards
- Stay abreast of industry trends and advancements in electrical engineering for sterile environments

Required Skills

About you:

- 5+ years of hands-on experience in electrical engineering within the pharmaceutical industry
- Proficiency in designing and maintaining electrical systems in compliance with industry regulations
- Expertise in Class C equipment and HVAC systems
- Knowledge of Autocad and the ability to create department/process layouts
