# Job Description

# (About Us)

The ZAMA Group is a full-service supplier and a global market leader in fluid and fuel management systems, precision machined parts, and electrical and electro-mechanical solutions, with a legacy of operational excellence.

We are looking for a motivated Electrical Connector Design Engineer to create and develop electrical connector designs with our team.

Your expertise will be key to our success. Apply now!

## **≪Job Description and Benefits of This Position**≫

- Design and development of electrical connectors and evaluation for compliance with international standards
- Collaborate with global teams to take a central role in product design
- Overseas business trips and participation in international projects included
- An environment where you can utilize your Japanese and English skills

# [Responsibilities]

- Create and develop electrical connector designs that meet specification requirements.
- Ensure that all designs comply with industry standards and regulations, such as UL, IEC, and RoHS, while

- maintaining adherence to quality and safety guidelines.
- Lead design reviews and contribute to continuous improvement initiatives to enhance product performance and reduce costs.
- Analyze test data, identify potential risks and recommend design improvements to the development team.
- Work closely, remotely or on site via business trips, with an international engineering and manufacturing team to ensure seamless realization of electrical connectors
- · Participate with the Quality Assurance team to ensure compliance with industry standards, such as ISO, IPC, etc.
