Job Description

We are seeking a skilled and experienced project manager with strong technical expertise to lead the development of a new platform.

Responsibilities:

- Lead the software team in building and deploying the fleet management system.
- Break down technical requirements into clear development tasks.
- Manage project timelines, resources, and potential risks.
- Conduct technical reviews and supervise integration and testing.
- Coordinate with product, design, and QA teams to ensure alignment.

Qualifications:

- Bachelor's degree or higher in a relevant field.
- 7+ years of experience in software project management.
- Strong foundation in software development and engineering practices.
- Proficient in at least one programming language (e.g., Java, Python, C++, JavaScript).
- Familiarity with cloud platforms (AWS, Azure) and relational databases (SQL).
