Job Description

Company Overview

Our client is a reputable leader in the construction industry, renowned for delivering large-scale and complex projects across residential, commercial, and institutional industries. Committed to excellence and innovation, the company consistently surpasses client expectations through strategic project management, cutting-edge technology adoption, and sustainable practices. As they continue to drive growth and expansion, they are now seeking a Project Director to join their team and contribute to their ongoing success.

Key Responsibilities

- Lead the end-to-end delivery of mid to large-scale building projects, from design to handover.
- Develop and execute project strategies, budgets, schedules, and risk management plans.
- Assemble and lead diverse project teams, ensuring seamless communication with stakeholders.
- Maintain high standards of quality, safety, and compliance with all regulations.
- Oversee tender processes, contractual agreements, subcontractor management, and project performance metrics.
- Manage client relationships, ensuring clear communication and timely issue resolution.
- Supervise commissioning, testing, handover, and post-project activities.
- Drive innovation through new technologies and continuous improvement initiatives.
- Foster talent development and uphold organizational values for sustainable growth.

Key Requirements

- Bachelor's or Master's degree in Civil/Structural Engineering, Construction Management, or related fields.
- At least 20 years of experience managing complex building projects, with a minimum of 10 years in a senior leadership role.
- Proven success in delivering projects exceeding \$100 million.
- Strong knowledge of local building codes, regulations, and contract management (SIA, PSSCOC).
- Preferably accredited as a Construction Professional (A-Star) and/or PMP.
- Demonstrated expertise in residential, commercial, and institutional developments.
- Exceptional leadership, stakeholder management, and client engagement skills.
- Committed to safety, sustainability, and high-quality standards.
