Job Description

Company and Job Overview

We are looking for passionate and detail-oriented Quality Assurance Engineers to join us.

This position is open to candidates across multiple experience levels from Junior to Senior and is ideal for those with a background or interest in Manual Testing, Automation Testing, or both.

Job Responsibilities

- Design and execute manual and automated test cases based on technical requirements.
- Prepare test documentation including test reports, procedures, and technical guidelines.
- Perform functional, regression, integration, and performance testing.
- Collaborate with development and product teams to understand requirements, propose solutions, and improve test coverage.
- Ensure product quality in a CI/CD environment
- Operate and maintain automated testing systems

Job Requirements

- Bachelor's degree in Computer Science, Telecommunications, or a related field.
- Ability to read and understand technical documentation in English; basic communication skills in English.
- Solid understanding of networking protocols such as MAC, VLAN Routing, DHCP, PPPoE,...
- Hands-on experience with testing tools, and bug tracking systems
- Familiarity or experience with software development and testing processes.
- Programming or scripting skills in Python, Java, JavaScript
- Certifications such as CCNA, CCNP or experience working with network equipment from major vendors are considered a strong advantage.
- Preferred candidates will have experience testing network devices, wireless network systems, or automated testing frameworks.

Benefits

- Professional working environment with strong support for technical skill development.
- Exposure to cutting-edge networking technologies and modern testing systems.
- Competitive compensation package aligned with skills and experience
- Clear career development path based on experience and specialization.

Due to the high volume of applicants, we regret to inform that only shortlisted candidates will be notified.

Thank you for your understanding.
