Job Description

Company and Job Overview

Our client is a MNC company specializing in producing epoxy encapsulation molding compounds for the semiconductor industry. They are now seeking for ESH Manager to supervise EHS activities at target subsidiaries to build an effective environmental and safety management system in Southeast Asia, supporting the Group's Purpose & Values.

Job Responsibilities

- Disseminate the group's EHS policy and management system, aiming to standardize and enhance the quality of EHS management
- Support EHS activities at target subsidiaries to achieve zero accidents, and ensure timely sharing of accident and disaster information within the entire group
- Strive for zero EHS compliance violations in Southeast Asia by establishing an independent regional EHS audit framework and monitoring management status
- Foster greater communication among target subsidiaries by organizing EHS forums and strengthening EHS initiatives at each subsidiary

- Educate and train local staff to perform EHS duties at the Southeast Asia RHQ, maintaining and enhancing the region's EHS capabilities

Job Requirements

- Japanese speaking/writing skills
- Bachelor's degree in any engineering discipline
- Minimum 3 years of managerial experience, particularly in the environment and safety department within manufacturing operations
- Strong negotiation and communication skills
- Proven leadership abilities to set clear policies and direction
- Skilled in investigation, research, information gathering, analysis, and planning
- Knowledgeable in machine safety, chemical substance management, work environment management, ISO management systems, such as ISO 14001 and ISO 45001
- Applicants must be Malaysian citizens or hold relevant residency status
