Job Description

Roles and responsibilities: -

- **Production Leadership:** Oversee AL machining production operations for 2-wheeler engine and transmission components, driving daily production planning, monitoring, and target achievement with high quality and efficiency.
- **Process Improvement:** Implement machining process enhancements to reduce cycle time, tooling costs, and rejections, and lead automation, robotics, and digitalization projects to boost productivity.
- **Cross-Functional Collaboration:** Coordinate with Manufacturing Engineering, Quality, Maintenance, SCM, and Product Development teams to ensure seamless operations.
- **Standards & Compliance:** Ensure adherence to TPM, IATF, ISO, and Yamaha global standards, driving cost reduction and energy-saving projects across machining operations.
- **Team Leadership:** Lead a large workforce with a strong focus on skill development, safety, and discipline, and prepare and present MIS, productivity reports, and improvement roadmaps to senior management.
- **Vendor Development:** Develop vendor/partner capability for tooling, fixtures, and machine spares.
