Job Description

Key Responsibilities:

- Lead and manage the production teams across Injection Molding, Assembly, and Mold Maintenance.
- Oversee daily operations, ensuring production schedules are met on time and with high-quality output.
- Monitor production processes to implement continuous improvements and optimize resource utilization.
- Provide strong leadership, training, and guidance to all production staff, including machine operators, assembly line workers, and maintenance technicians.
- Set clear performance goals and conduct regular performance evaluations for your team.
- Foster a positive, productive, and safe working environment.
- Ensure the proper maintenance of all molding equipment and molds to prevent production downtime.
- Collaborate with the maintenance team to develop and execute preventive maintenance schedules.
- Troubleshoot and resolve production issues related to molds, machines, and processes quickly and effectively.

Qualifications and Requirements:

- **Education:** Minimum of a Diploma or Bachelor's degree.

- **Experience:** Proven experience in a production leadership role within a manufacturing company.
- **Language:** Fluent in Japanese (both written and spoken) to effectively communicate with stakeholders and key team members.
- **Skills:** Extensive experience in the production section, including scheduling, training, Kaizen, and other activities related.
- **Attributes:** Excellent leadership, communication, and problem-solving skills. A proactive and hands-on approach to management and continuous improvement. Ability to work in a fast-paced and results-oriented environment

**Notice:** By submitting an application for this position, you acknowledge and consent to the disclosure of your personal information to the Privacy Policy and Terms and Conditions, for the purpose of recruitment and candidate evaluation.
