### Job Description

#### Why you'll love working here?

- Competitive **salary** with **performance-based bonuses** and **stock options**
- Generous **training and professional development opportunities**
- Flexible **work arrangements**, including hybrid and remote options

- Strong focus on **work–life balance** in a friendly, collaborative environment
- Opportunities to **collaborate globally** with cross-cultural teams
- Supportive culture that values **innovation, creativity, and employee wellbeing**

We are seeking a Senior Product Designer to join our product design team in Tokyo. This is a bilingual role requiring understanding in Japanese and English, collaborating with cross-functional teams across multiple regions.

The Senior Product Designer will:

- Lead the **end-to-end design of digital products**, including eReader devices, mobile apps, and responsive web platforms
- Facilitate workshops and align stakeholders around product opportunities
- Translate user research and business requirements into **compelling design solutions**
- Drive design vision and strategy for the product roadmap
- Contribute to building and implementing a **best-in-class design system and component library**

### Responsibilities

#### Design Leadership

- Conduct user opportunity mapping and gap analysis
- Lead product discovery and definition initiatives
- Advocate for user-centered design across teams

#### Collaboration

- Work closely with developers, researchers, analysts, and product managers
- Align design goals across multiple regions and time zones
- Foster a culture of transparency, respect, and collaboration

#### Design Strategy & Planning

- Integrate customer research into product decisions
- Define design stories, acceptance criteria, and measure outcomes
- Create innovative solutions for complex user needs

#### Design Creativity

- Actively contribute to the product's visual and interaction design
- Focus on accessibility (WCAG-compliant) and multi-platform usability
- Support continuous improvement of design systems

---

### Required Skills

#### You'll be a great fit if you...

- Have experience designing **digital products across multiple platforms** (iOS, Android, web, or devices)
- Enjoy **translating research and user feedback** into actionable design solutions
- Are confident using tools like **Figma, FigJam, or similar** for wireframing, prototyping, and collaboration
- Like **working with cross-functional teams**—developers, PMs, researchers, and analysts—to bring ideas to life
- Are motivated by **leading design workshops, aligning stakeholders**, and shaping product vision
- Care about **accessibility and inclusive design** (WCAG or similar principles)

- Have a **portfolio** that shows your thought process, design decisions, and creative solutions
- Enjoy **building and iterating on design systems** and reusable components
- Are curious about new technologies, trends, and ways to **improve user experience**

**Bonus / Nice-to-Have**

- Experience with **Storybook, Adobe Creative Suite, Sketch, Zeplin, or InVision**
- Worked in **digital content, eReading, eCommerce, entertainment, or software**
- Comfortable in **Agile environments** and iterative product development
- Awareness of **HTML, CSS, or React.js**

**Not all boxes checked? No worries!**

Even if you don't match everything above, we still encourage you to apply — we'd be happy to share **other exciting design opportunities** that may be a great fit for you.
