Job Description

Company Overview

Our client a leading engineering company with a significant global presence. They specialize in a broad range of electrical, mechanical, and telecommunications engineering services for various sectors, including building, industrial, and infrastructure projects. As they continue to drive growth and expansion, they are now seeking a Senior Electrical Engineer, Quality Control, to join their team and contribute to their ongoing success.

Key Responsibilities

- Implement and manage quality control procedures for electrical works on site.
- Conduct inspections, audits, and testing of electrical installations, equipment, and materials.
- Review and verify electrical shop drawings, material submissions, and method statements for compliance.
- Monitor workmanship to ensure alignment with project specifications and quality standards.
- Prepare non-conformance reports (NCRs), track corrective actions, and ensure timely closure.
- Liaise with consultants, clients, and subcontractors to resolve quality-related issues.
- Maintain quality documentation, inspection records, and test reports.
- Support handover and commissioning by ensuring all electrical quality requirements are met.

Key Requirements

- Degree/Diploma in Electrical Engineering or related discipline.
- Minimum 6–8 years of experience in quality control for electrical works in large-scale construction projects.
- Strong knowledge of LV/MV electrical systems, standards, and QA/QC practices.
- Familiarity with relevant codes, regulations, and authority requirements in Singapore.
- Detail-oriented with strong analytical and problem-solving skills.
- Effective communication and coordination skills to work with multiple stakeholders.
- Experience in industrial or large infrastructure projects is an advantage.

Apply online or feel free to contact me directly for more information about this opportunity. Due to the high volume of applicants, we regret to inform that only shortlisted candidates will be notified. Thank you for your understanding.
