### Job Description

#### About the Role:

We are seeking a skilled and motivated Service Engineer to join our Cryogenic Systems team. The role involves hands-on servicing, maintenance, and technical support for advanced cryocooler systems. This is a customer-facing position requiring strong technical acumen and effective communication skills.

#### Products Handled:

- FA-70 Indoor/Outdoor Air-Cooled Compressor Series
- CH-160D3 Cryocooler Series
- RDE-412D4 & RDE-418D4 4K Cryocooler Series

#### Key Responsibilities:

- Install, maintain, and service cryogenic outdoor units.
- Troubleshoot issues related to compressors, piping, and cooling systems.

- Conduct inspections, testing, and preventive maintenance to ensure optimal performance.
- Provide on-site customer support and coordinate with internal teams for technical resolutions.
- Prepare service reports and documentation in English.
- Assist senior engineers in localization and technical improvement initiatives.

Required Skills & Experience:

- 3–4 years of experience in equipment servicing or maintenance (preferably in high-pressure gas or cooling systems).
- Basic understanding of compressors and refrigeration systems.
- Hands-on experience in routine checks and repairs.
- Proficiency in English for reporting and coordination.
- Honest, diligent, and team-oriented personality.

Preferred Skills & Experience:

- Skills in welding and brazing.
- Experience in cryogenic or precision cooling equipment maintenance.
- Exposure to Japanese manufacturing environments.

**Notice:** By submitting an application for this position, you acknowledge and consent to the disclosure of your personal information to the Privacy Policy and Terms and Conditions, for the purpose of recruitment and candidate evaluation.
