Job Description

A global leader in MEMS technologies, delivering high-performance audio solutions for consumer electronics, hearing health, and industrial applications is looking for Strategic Sourcing Manager with vast experience in handling raw material commodity including capacitor and inductor.

Job Responsibilities

- Lead sourcing of materials and supplier management to support all business units across the organization.
- Monitor and analyze global economic trends and commodity pricing to inform procurement strategies.
- Perform comprehensive spend analysis, SWOT assessments, and supply-demand evaluations to guide decision-making.
- Develop, implement, and oversee long-term sourcing strategies that maximize business value and operational efficiency.
- Establish and manage supplier contracts, pricing roadmaps, and cost-saving initiatives.
- Build and maintain strong relationships with internal stakeholders and external partners to drive optimal business outcomes.
- Evaluate and enhance supplier performance using scorecards and lead quarterly business reviews (QBRs).
- Participate in vendor audits to ensure compliance with environmental policies and corporate social responsibility standards.
- Collaborate with cross-functional teams (CFT) and Product Lifecycle Management (PLM) on sourcing-related activities

Job Requirements

- Bachelor's degree in Material/ Electrical Engineering/ Supply Chain Management/ Business Administration or any other equivalent discipline.
- At least 5-7 years of relevant working experience in industrial manufacturing
- Candidates with capacitor raw material sourcing experience will be an added advantage (film and/or ceramic capacitor)
- Strategic thinking and analytic skills, inclusive but not limited to total cost of ownership and detailed cost elements, etc.
- Willing to travel for business meetings and supplier audit
