Job Description

This is a high-impact, customer-facing role for a visionary Enterprise Architect who thrives on aligning technology with business transformation. You'll lead strategic engagements across infrastructure, cloud, and cybersecurity domains, driving complex solutions for enterprise clients in Japan and APAC

Client Details

Our client is a **global provider of enterprise sec and digital infrastructure services**, supporting organizations through **secure network solutions, scalable cloud environments, and edge innovation** . Headquartered in the United States with a **growing presence across Asia Pacific** , the company partners with leading enterprises to **enable digital transformation and data-driven business models**.

Description

- Lead executive-level engagements to uncover business challenges and define tailored technology solutions
- Design end-to-end architectures across infrastructure, cloud, cybersecurity, and application domains
- Facilitate workshops, whiteboarding sessions, and technical deep dives
- Collaborate with Sales, Product, and Engineering teams to shape strategic pursuits
- Mentor junior architects and contribute to regional strategy and innovation

- Represent the APAC region in global architecture forums and advocate for local needs

Job Offer

- Opportunities to work on high-impact projects
- New Security services, be part of the key members
- Comprehensive benefits package
- Professional growth and development opportunities within the organization.
- Hybrid Work
- Flexible salary tailored to your experience and impact
