Job Description

The Security Governance Lead will play a critical role in overseeing governance and management information within the technology department of the financial services industry. This position, based in Tokyo, requires a strong focus on ensuring compliance and driving operational efficiency.

Client Details

This opportunity is with a large organization within the financial services industry, recognized for its extensive operations and commitment to technological excellence. The company is headquartered in Tokyo and offers a professional environment for career growth.

Description

- Develop and implement governance frameworks to ensure compliance with internal and external standards.
- Oversee the production and analysis of management information to support strategic decision-making.
- Collaborate with key stakeholders to align governance initiatives with business objectives.

- Monitor and report on the performance of technology governance processes.
- Drive continuous improvement within governance and MI practices.
- Ensure effective communication of key performance indicators and risk metrics to senior leadership.
- Support the development of policies and procedures within the technology department.
- Act as a point of contact for governance-related queries and initiatives.

Job Offer

- Competitive salary in the range of JPY 12,000,000 to JPY 17,000,000.
- Opportunity to work in a large and established financial services organization in Tokyo.
- Professional development and career advancement opportunities.
- Exposure to high-level governance and decision-making processes.
- A supportive and structured working environment.

This is an excellent opportunity for individuals passionate about technology governance in the financial services industry.
