## Job Description

**About Us**

We are a dynamic and forward-looking organization focused on delivering cutting-edge solutions in the fields of AI, IoT, and engineering services. Our team thrives on collaboration, customer satisfaction, and continuous growth

**Job Responsibilities**

- Develop new customers and visit existing customers;
- Listen to customer problems during visits and create requirement definition documents;
- Business coordination between customers and internal engineers;
- Contracts and delivery.

**Job Requirements:**

- Native proficiency in Chinese and English; proficiency in Japanese is preferred;
- At least 2 years of software sales experience related to AI and IoT; (or at least 2 years of sales experience in the construction industry, or work experience in European, American, or Japanese companies);
- College degree or above, majoring in business administration or IT-related fields; candidates with rich practical experience may be considered separately;
- Age under 50;
- Experience in digital marketing is preferred;
- Experience in applying for relevant government subsidies is preferred.

Apply online or feel free to contact me directly for more information about this opportunity. Due to the high volume of applicants, we regret to inform that only shortlisted candidates will be notified. Thank you for your understanding.
