Job Description

Position: SAP Project Manager (IT Development)

Salary: 70,000 - 100,000 THB (depend on experience)

Location: Panthong, Chonburi

Workday: Monday - Friday

- We are seeking a highly experienced and dedicated individual to oversee our crucial IT system projects and system compliance. The core focus of this role will be the successful SAP Implementation across the company, alongside managing quality and environmental compliance (ISO/IATF).

Job Description:

- SAP Implementation & System Development (Core Focus): Manage the entire SAP Implementation schedule,

ensuring alignment and cooperation from all concerned departments and sections within the company.

- Serve as the main contact window for the external SAP Consultants, facilitating communication and coordination.
- Define system concepts and contribute to the detailed system design process.
- Manage the overall project schedule, including controlling the timeline for in-house system development activities.
- Conduct and evaluate environmental aspects for ISO 14001 to ensure full conformity with company policy.
- Ensure all activities conform to the requirements of the Quality Manuals (ISO 9001, IATF 16949) and Environmental standards (ISO 14001).
- Direct and control subordinates to ensure they strictly follow all company policies, rules, and regulations.
- Uphold and enforce all company rules, regulations, and supervisory commands.

Qualifications:

- Bachelor's degree in a related field (e.g., Information Technology, Computer Science, Engineering).
- Must have experience in full-cycle SAP implementation.
- Proven experience in managing subordinates or a team.
- Good command of English (both spoken and written).
- Flexible, with excellent interpersonal and communication skills.
