Job Description

Position: IT Manager

Salary: 100,000- 120,000 THB (depend on experience)

Location: Chonburi

Workday: Monday - Friday

Key Responsibilities

- Enterprise Systems Leadership (ERP/CRM Focus) Lead the full lifecycle management of ERP systems (e.g., SAP, Oracle, Dynamics) including implementation, maintenance, and continuous enhancement across the region.
- Ensure the strategic alignment of ERP solutions with core business processes across Finance, Supply Chain, Manufacturing, and HR.
- Manage and optimize CRM platforms (e.g., Salesforce, Dynamics 365), focusing on integration with ERP and enabling automation for sales and service operations.
- Coordinate regional input for global ERP upgrades and manage local system integration and support teams.

- Software Development (Programming/Coding Focus)
- Oversee and direct in-house and/or outsourced development teams for web, mobile, and internal tool creation.
- Manage all software projects using Agile or Hybrid methodologies, defining project scopes, managing risks, and ensuring timely delivery.
- Ensure adherence to coding best practices, quality standards, version control, and robust deployment processes.
- Develop, manage, and control the regional IT budget, ensuring cost-effectiveness and alignment with the annual operating plan.
- Serve as the primary liaison with vendors, contractors, and global IT counterparts to ensure seamless, aligned execution of IT initiatives.
- Design and maintain secure, high-availability IT infrastructure (Network, Cloud, Storage, and Servers) across all regional sites.
- Drive the implementation and use of Data Analytics and BI tools (e.g., Power BI, Tableau) to provide executive dashboards and KPIs for operational optimization.

Job Qualifications

- Education: Bachelor's or Master's degree in Information Technology, Computer Science, or a related field.
- Experience: 8+ years in IT leadership roles, with mandatory, proven experience in regional management across multiple Asian sites.
- Proven success managing large-scale ERP, CRM, and custom software development projects.
- Hands-on knowledge of both infrastructure and business application systems, coupled with strong analytical, problem-solving, and decision-making abilities.
- Excellent leadership, strategic planning, and team management capabilities. Strong vendor management, budget control, and negotiation skills.
- **Excellent written and verbal communication skills in English.**
