Job Description

The Store Planning Manager will oversee the design, development, and execution of retail store layouts to enhance customer experiences and align with brand standards. This role requires expertise in project management, retail store planning, and a keen eye for aesthetics and functionality.

Client Details

This opportunity is with a large organization in the retail industry, known for its premium products and commitment to excellence. The company operates globally and is dedicated to creating innovative and customer-focused retail environments.

Description

- Lead the planning and design of retail store layouts in alignment with brand guidelines and customer needs.
- Collaborate with internal teams and external vendors to ensure timely project completion.
- Oversee budgeting, scheduling, and resource allocation for store development projects.
- Ensure compliance with local regulations and safety standards in all store designs.
- Conduct site evaluations and feasibility studies for new store locations.
- Provide creative input to enhance the visual appeal and functionality of retail spaces.

- Monitor project progress and resolve any issues that may arise during execution.
- Maintain strong communication with stakeholders to ensure alignment on project goals.

Job Offer

- Work from home available.
- Opportunities for career growth within larger luxury group.
- A permanent position with a globally recognized retail brand.
- A collaborative and professional company culture.
- Potential for career growth within the organization.

If you are passionate about retail store planning and are ready to contribute to exciting projects, we encourage you to apply.

To apply online please click the 'Apply' button below. For a confidential discussion about this role please contact Matthew Li.

Required Skills

A successful Store Planning Manager should have:

- A background in architecture, interior design, or a related field.
- Proven experience in retail store planning or project management.
- Strong knowledge of construction processes and materials.
- Familiarity with design software such as AutoCAD or similar tools.
- An ability to manage multiple projects in a fast-paced environment.
- Excellent communication and collaboration skills.
