Job Description

At Quaker Houghton, we make the essentials of everyday life possible and enable new approaches for a positive future. Based in every corner of the world, our people are passionate about what we do. To achieve our 2030 vision, gaining an edge by investing in our product application team is more important than ever.

As the Product Application Engineer for Die Casting applications, you will interact with our Japan based key customers, translating their needs into innovative product solutions in coordination with the R&D, sales and marketing teams. You

## What will you do?

- Responsible for technical product application support to the OH sales team focusing on the Japan Die Casting market. Our key customers are within the Automotive sector.
  Participating in the pre-sales and post-sales technical product application support activities.
  Visiting our customer sites within Japan, you identify and understand customer needs translating the objective to the appropriate function in QH, such as R&D.
  Co-ordinate with other functions to determine and establish technical feasibility and product cost as input for the final offer.
- Hold presentations to customers on technical/product related subjects in co-operation with sales/key account
- manager
- Propose product modifications in order to fulfill customer specific needs or requirements.
   Maintain highest EHS standards.

## What's in it for you?

- Competitive pay + bonus & rewards program
   Field base and flexible work arrangement to support a good work-life balance
   Paid volunteering leave to dedicate to the cause of your choice
   Dress for the day policy
   Access to real career growth opportunities
   OH University: Continuous training tools for all seniority levels
   Attractive Wellbeing, Mental Health, Women Inclusion & other DEI programs
   Join a collaborative team where innovative initiatives are expected.

- . Join a collaborative team where innovative initiatives are expected

## Who are we?

We are the global leader in industrial process fluids present in 40+ countries continually improving and innovating so the world's steel, aluminum, automotive, aircraft, machinery and industrial parts manufacturers can stay ahead in a changing world. Throughout our 100+ locations, our chemists, englineers and industry experts partner with our cathomers to continually improve their operations so they can run even more efficiently, even more effectively, whatever comes next.

Our values: Live Safe, Exceed Customer Expectations, Drive Results, Embrace Diversity, Do Great Things Together and Act

with Integrity.

Our core values embody who we are as a company, guide our decisions and inspire us. Our commitment to these values, in

words and actions, builds a safer, stronger Quaker Houghton. They are the fundamental beliefs that guide our internal conduct and our relationship with the outside world.

### Join the team and let's do great things together!
