Job Description

We are seeking a skilled Python Developer (Mid level) to join our team in Tokyo, working on innovative projects within the technology industry. This temporary role requires expertise in Python programming and a passion for delivering high-quality solutions.

Client Details

The hiring company is a large organisation within the technology and telecoms industry, known for its cutting-edge solutions and commitment to excellence. They offer a collaborative environment focused on innovation and technical expertise.

Description

- Develop, test, and maintain Python-based applications to meet project requirements.
- Collaborate with cross-functional teams to design and implement software solutions.
- Debug and resolve software issues to ensure smooth system operation.
- Participate in code reviews to maintain high-quality standards.
- Contribute to the optimisation and scalability of existing systems.
- Document technical specifications and project progress effectively.
- Ensure compliance with project timelines and deliverables.
- Stay updated with industry trends to integrate new technologies into projects.

Job Offer

- Competitive salary package.
- Opportunity to work in a large organisation within the technology industry.
- Engaging and challenging projects in a collaborative environment.
- Strong focus on professional growth and technical skill development.
- Free meals and other benefits.

If you're a motivated Python Developer (Mid level) based in Tokyo, this is your chance to make an impact in the technology industry. Apply now to join a forward-thinking team!

To apply online please click the 'Apply' button below. For a confidential discussion about this role please contact Viet Phan on +81 3 6832 8625.

Required Skills

A successful Python Developer (Mid) should have:

- Proficiency in Python programming and related frameworks.
- Strong problem-solving skills and attention to detail.
- Experience in working on software development projects within the technology industry.
- Knowledge of version control systems, such as Git.
- Ability to work collaboratively in a team environment.

Company Description

The hiring company is a large organization within the technology and telecoms industry, known for its cutting-edge solutions and commitment to excellence. They offer a collaborative environment focused on innovation and technical expertise.
