Job Description

Our client - a company in the consulting and digital transformation industry is hiring for an SAP Consultant / Senior Consultant position.

Job Description

- Participate in full SAP project lifecycles including design, data management, functional specification, configuration, testing, and post-implementation support.
- Configure and integrate SAP FICO with related modules such as MM or SD to support project scope and requirements.
- Analyze and solve complex business problems using deep functional and technical expertise.
- Develop and document functional specifications, configuration rationale, and master data standards to support SAP processes.
- Provide recommendations and design solutions that align with business goals and operational needs.

- Support data migration, testing activities, and enhancement of existing systems for optimal performance.
- Collaborate with clients and project teams to ensure project deliverables meet quality and business expectations.

Job requirements

- Bachelor's or Master's degree, preferably in a related field.
- At least 5 years of solid experience in SAP FICO implementation within a professional consulting environment.
- Strong working knowledge of SAP S/4HANA and Fiori applications.
- Skilled in SAP configuration, integration with MM and/or SD modules, and process documentation.
- Experience in preparing functional specifications for reports, interfaces, enhancements, and forms.
- Excellent analytical, problem-solving, and communication skills, with confidence in presenting to multinational clients.
- Strong teamwork, adaptability, and professional consulting attitude.
