### Job Description

A global leader in disaster recovery and restoration is seeking a Project Manager to join their Penang team. This on-site role is crucial in managing client engagement, damage assessment, contract acquisition, and full-cycle project delivery following incidents such as fire, water damage, or natural disasters.

This position offers a potential transfer opportunity to their Singapore office, providing regional career growth within a dynamic and impactful industry.

**Key Responsibilities:**

- Damage Assessment: Evaluate site conditions, define client needs, and prepare quotations for recovery services.
- Sales: Engage stakeholders, negotiate terms, and secure contracts while maintaining strong client relationships.
- Project Management: Plan and oversee recovery projects, ensuring quality, profitability, and timely completion.

**Key Requirements:**

- Degree in Engineering, Construction, Environmental Science, or related field.

- Project Management certification (e.g., PMP) preferred.
- Safety certifications (e.g., OSHA, CIDB) are an advantage.
- Proven experience in technical sales and client management.
- Strong communication, negotiation, and problem-solving skills.
- Able to manage complex projects and respond to emergencies on short notice.

**Notice:** By submitting an application for this position, you acknowledge and consent to the disclosure of your personal information to the Privacy Policy and Terms and Conditions, for the purpose of recruitment and candidate evaluation.
