Job Description

Our client is a global company (HQ in USA), who are well established in the Digital Payaments / Payment processing services. In Japan, major clients include Matsumoto Kyoshi, Starbucks, AEON etc. retailing companies. Office location is in central Tokyo, and the company is expanding!

Currently the company is introducing a new cloud-based SaaS service that will be implemented at client companies, to replace a previous system.

They are looking for a Project Manager to develop systems, such as sales management and order processing. Employees will have the opportunity to gain experience in upstream processes, including business consulting, design, development and project management! Stable company with expanding business

Required Skills

- 2-3 years of experience creating business applications

- Preferably experience in SaaS Implementation

- Excellent communication skills

- Native level Japanese, Basic to conversational English

- IT Engineers who wish to step up to Project Management are also welcome

Company Description
