Job Description

A Global IT service firm is looking for a **Technical Product Manager**.

Responsibilities:

- Understand Business Needs: Read and analyze Business Requirements Documents (BRDs) to grasp what's needed
- Design Solutions: Create clear High-Level Design (HLD) documents, outlining how features will work technically
- Drive Mobile Product Development: Manage the full lifecycle of our mobile apps, from planning to launch
- Work with Engineers: Collaborate closely with development teams, translating requirements into actionable tasks
- Use Key Tools: Master Jira for project tracking and Confluence for documentation and team collaboration
- Improve Products: Analyze data and feedback to continuously enhance our mobile offerings

Why should you apply:

- This is a long-term opportunity with a chance to become a permanent employee
- You will be working with international team members
- Free breakfast, lunch and dinner at the cafeteria

Company Details:

A global company with a strong presence in multiple business areas. It has achieved sustained growth both domestically and internationally, including in the U.S. and Europe. The company boasts a diverse and international environment and is committed to equal opportunity, offering a wealth of career opportunities. Due to the diverse nature of our business, we handle a wide range of technologies! You can also choose the environment you are most comfortable with, such as Windows/Mac! Meals in the company cafeteria are also free. Our chefs are always coming up with new menu items, so you can enjoy your meal without getting bored!

Services/Benefits: Social insurance, DC Pension Plan, Transportation Fee, Skillhouse University, Test payback system, and more

Required Skills

- Product Management
- HLD creation
- JIRA
