Job Description

We are seeking a skilled Java professional to join our technology team. This role requires expertise in Java programming and Spring framework to support various technical initiatives.

Client Details

This is a position with a large organisation, known for its innovation and commitment to delivering high-quality technology solutions.

Description

- Develop and maintain Java applications using the Spring framework.
- Ensure high performance and responsiveness of applications.
- Collaborate with cross-functional teams to define and implement new features.
- Participate in code reviews to maintain code quality and standards.
- Identify and troubleshoot software issues, providing effective solutions.

- Contribute to the design and architecture of scalable applications.
- Document development processes and technical specifications.
- Ensure compliance with project deadlines and deliverable.

Job Offer

- Opportunity to work on cutting-edge technology projects.
- Commute, pension and insurance fully covered
- International working environment

If you are a talented Java & Spring professional looking for an exciting opportunity in Tokyo, we encourage you to apply today!

To apply online please click the 'Apply' button below. For a confidential discussion about this role please contact Tianhong Han on +813 6832 8977.

Required Skills

- Proficiency in Java programming and the Spring framework.
- Strong understanding of software development principles and best practices.
- Experience in building scalable and maintainable applications.
- Ability to collaborate effectively with technical and non-technical teams.
- Problem-solving skills and attention to detail.
- Familiarity with the retail industry is a plus.

Company Description

Our Client is one of the largest IT E-Commerce company in Japan
