## Job Description

- **Strategic Planning:** Define project goals and scope by working closely with executives, business leaders, product managers, and technical teams.
- **Team Leadership:** Lead, mentor, and develop a team of project managers, fostering a high-performing and collaborative environment.

- **Execution & Delivery:** Oversee project execution, ensuring projects stay on schedule, within budget, and meet quality standards. Proactively manage risks and issues.
- **Stakeholder Communication:** Serve as the main contact for executives, providing regular updates on project status, risks, and progress.
- **Budget & Resource Management:** Develop and manage project budgets, tracking expenses and optimizing resource use.
- **Quality Assurance:** Work with the QA team to ensure the Ichiba platform is thoroughly tested and meets all quality requirements.
- **Launch Coordination:** Coordinate the successful launch of new features and platform enhancements.
- **Process Improvement:** Identify and implement ways to improve project management processes and methods.

## Required Skills

- 4-6+ years of experience in project or program management, with a significant focus on front-end + back-end platform development.

- Knowledge of software development with modern technology

- Strong Leadership skills

- Excellence in Issues and Risk Management

- Proven track record of successfully launching and managing large-scale, complex software development projects and programs.

- Extensive experience with SDLC Waterfall

- PMP or other relevant project management certification is required.
