Role Overview

The Sales Manager will be responsible for identifying, developing, and securing Mechanical & Electrical (M&E) and infrastructure project opportunities in the industrial sector. The ideal candidate possesses strong technical sales experience, excellent negotiation skills, and a proven track record in achieving project sales targets within the construction or energy industry.

Key Responsibilities

- Develop and implement effective sales strategies to secure M&E and infrastructure projects.
- Identify new business opportunities and build long-term client relationships within the industrial and energy sectors.
- Prepare, present, and negotiate business proposals, tenders, and contracts with clients, consultants, and main contractors.
- Collaborate closely with internal technical and project teams to ensure project alignment and client satisfaction.
- Conduct market research to identify industry trends, competitors, and potential clients.
- Achieve individual and departmental sales targets aligned with company objectives.
- Represent the company in meetings, trade exhibitions, and networking events.

Requirements

- Bachelor's Degree or Diploma in Mechanical / Electrical / Civil Engineering, Business, or related field.
- Minimum 8–12 years of working experience in technical sales within the construction or energy industry.
- Proven track record in securing M&E or infrastructure project sales.
- Strong business acumen with the ability to develop and negotiate complex contracts.
- Excellent communication and interpersonal skills.
- Male candidates below 45 years old are preferred.
- Self-motivated, independent, and able to perform under minimal supervision.
