Job Description

Transforming the Future of Enterprise Planning

At o9, our mission is to be the Most Value-Creating Platform for enterprises by transforming decision-making through our AI-first approach. By integrating siloed planning capabilities and capturing millions—even billions—in value leakage, we help businesses plan smarter and faster.

This not only enhances operational efficiency but also reduces waste, leading to better outcomes for both businesses and the planet. Global leaders like Google, PepsiCo, Walmart, T-Mobile, AB InBev, and Starbucks trust o9 to optimize their supply chains.

Technical Consultant, Senior – Japan

The role requires deep analytical, technical, and complex problem-solving skills with knowledge of optimization methods, financial computations, statistical analysis, and advanced mathematical modeling techniques. It also requires exposure to data science, and associated software and programming technologies. Additionally, this role requires exposure to advanced planning systems and tools.

This position is responsible for solution delivery, analysis, and interpretation of data to assist management and leadership in rapid decision making and optimizing their supply chain to better serve their customers and shareholders. The solution delivery is through a variety of activities including process design, data analytics, solution configuration and deployment, setting up performance metrics and new policies, testing, and knowledge management.

The role would be responsible for participating in requirement and design sessions with the customer; analyzing areas of improvement opportunities; collecting and analyzing data to provide decision support information; preparing business impact case study; working with onshore and offshore teams to configure the solution and finally creating the test-cases to ensure the solution works as per the design.

What you'll do for us...

- Design, build and deploy effective SSIS packages to validate, synthesize, transform customer data for integrated business planning and analytics
- Understand o9 platform's data model (table structures, linkages, optimal designs) for designing various planning use cases
- Review and analyze the data provided by customer along with its technical/functional intent and inter-dependencies
- Participate in the technical design, data requirements gathering, making recommendations in case of inaccurate or missing data
- Design and automate the data loading and insights generation process with intelligent checks and balances for sustained value delivery
- Create and execute test plans, document issues and track progress at resolving issues
- Understand performance problem mechanism regarding various DB technologies within various platforms, and design solution of them

What you'll have...

Experience: At least 3 years of experience with implementing ETL solutions for different clients is a MUST. Design integration flow and data processing interfaces specification between other system end points and o9 platform

Education: Bachelor's degree/Masters Degree in Computer Science and related fields of work are preferred.

Skills: Proficiency in databases (SQL Server, MySQL) and skills in one or more languages like SQL, MDX, T-SQL with knowledge of DDL, DML, stored procedures, triggers and performance tuning is a MUST.

Japanese: native level

English: business communication level

Some Knowledge of C# /JavaScript / VB.NET or analytical packages like R is desirable.

Knowledge and experience in Hadoop/Hive, IOT data platform and related open source technologies are pluses

- **Characteristics:** Proficient in the use of Microsoft Excel/PowerPoint /Visio for analysis and presentation

Ability to work with and as a true team

Organized and diligent style of working

We really value team spirit: Transparency and frequent communication is key. At o9, this is not limited by hierarchy, distance, or function

What we'll do for you...

- Competitive salary
- Flat organization: With a very strong entrepreneurial culture (and no corporate politics).
- Support network: Work with a team you can learn from and every day.
- Diversity: We pride ourselves on our international working environment
- Work Life Balance: <https://youtu.be/IHSZeUPATBA>
- Feel part of A team: <https://youtu.be/QbjtgaCyhes>

Employee Testimonial...

I have been working at o9 solutions for almost a year now and I can say that it has been an amazing experience. The company has a great work culture and provides ample opportunities for growth. The management is very supportive and encourages employees to take up new challenges. - N.Ursu, Technical Consultant, Japan

More about us...

At o9, transparency and open communication are at the core of our culture. Collaboration thrives across all levels—hierarchy, distance, or function never limit innovation or teamwork. Beyond work, we encourage volunteering opportunities, social impact initiatives, and diverse cultural celebrations.

With a \$3.7 billion valuation and a global presence across Dallas, Amsterdam, Barcelona, Madrid, London, Paris, Tokyo, Seoul, and Munich, o9 is among the fastest-growing technology companies in the world. Through our aim10x vision, we are committed to AI-powered management, driving 10x improvements in enterprise decision-making. Our Enterprise Knowledge Graph enables businesses to anticipate risks, adapt to market shifts, and gain real-time visibility. By automating millions of decisions and reducing manual interventions by up to 90%, we empower enterprises to drive profitable growth, reduce inefficiencies, and create lasting value.

o9 is an equal-opportunity employer that values diversity and inclusion. We welcome applicants from all backgrounds, ensuring a fair and unbiased hiring process. Join us as we continue our growth journey!
